

For the Hair

Are you so fortunate as to be well satisfied with your hair? Is it long enough, thick enough, rich enough? And your hair does not fall out? Well, well, that is good. But you may know of some not so fortunate. Then just tell them about Ayer's Hair Vigor. They will surely thank you after using it, if not before. Remember, it does not color the hair. Show the list of ingredients to your doctor. Let him decide their value. He knows.

ROPE IN SUNDAY CLOTHES

Fibers Sometimes Get There From Twine Around the Wool, Despite Every Precaution.

People who have had the experience of pulling fibers of rope out of their Sunday clothes will probably be relieved to know that the cloth maker was not trying to spread his wool over an unreasonably large territory by the addition of jute or hemp. The fact is that the bits got into the wool when the wool was bundled up and came from the jute or sisal twine with which it was tied.

Some of the fibers of twine made of jute or sisal become loose and detached from the parent body during shipment and work their way into the wool. The manufacturers find it impossible to get these odd fibers out of the wool in the scouring process, and the result is that they go through the carding or combing machines, are spun into yarn or thread, get into the material for one's clothes, and not until that point is reached begin to work their way out of the cloth. If they are plainly visible on the surface of the cloth of course they can be removed at once, but sometimes they are so deeply embedded in the fabric that it takes a long time for them to come to the surface. Then it looks as if the spinner had expanded his supply of wool by using hemp.

For this reason twine made of paper is being manufactured for wool growers to tie up their product. This twine is just as strong as the old kind, has a perfectly smooth surface, thus offering no opportunity for loose bits to break off and become embedded in the wool; is light in weight and is cheaper in addition.

HE WAS WISE

Tom—When he goes to church he puts a nickel in the contribution plate and when he goes to the theater he pays \$2 for his seat.

Jack—That shows that he wants to be close wherever he goes.

A WAR CRITICISM.

"A newspaper writer wants to know how goes the Turko-Italian war."

"I think it must go in a circle. It doesn't seem to get anywhere."

THE REASON.

"How my spring flowers are shooting up," remarked mamma, in the garden.

"That's because they have pistols," suggested wise little Tommy.

THE AUTOCRAT.

City Friend—Which rules in that rural Eden of yours—you or your wife?

Suburbanite (meekly)—Neither. We have to mind the cook.

THE WRONG ONE.

"Don't you like a broadening life?"

"Not much I don't. I am paying to have my surplus flesh reduced now."

COMPETITIVE DISTINCTIONS.

"My uncle went riding in a friend's runabout."

"That's nothing. My brother was knocked down by a real touring car."

CONSISTENT.

"In one way the primary sustains its name."

"What is that?"

"It is not a secondary matter."

PROOF OF IT.

"My husband had some good punch at our house last night."

"I know it. My husband came home just full of it."

Colorado

is Nature's Big Repair Shop

Your overhauling is due. Your nerves are frazzled. Your sleep brings no rest. Your appetite is an insult to the cook and your digestion is a loafer. You're run down. And why not? How long do you think blood and flesh will submit to the pounding you've given yourself for the last year?

Go out to Colorado and let the hills take you in hand. Take a daily bath in the mountain air, forget your worries and hurries and play for a month. Come back with man power like horse power and make the next eleven months count for twenty-four. It's cheap to get a man who can work like two at the cost of a month's rest. And the round trip fares are low enough for any pocketbook.

Any way of going to Colorado is a good way, because it gets you to Colorado. But the best service is via the

Rock Island Lines

—every day to Denver, Colorado Springs and Pueblo—

"The Rocky Mountain Limited" daily from Chicago and Omaha and "The Colorado Flyer" daily from St. Louis and Kansas City, are electric-lighted trains of perfect comfort. A delightfully picturesque ride. Just a night on the way. Modern Pullmans, dining and observation cars.

Take the Rock Island Lines from the Nearest Point.

These and other fast daily trains make the "going" to Colorado, Yellowstone Park and the Pacific Coast a part of your vacation. Let me send you our booklets, "Under the Turquoise Sky," and "Little Journeys in Colorado," and help you plan the best vacation of your life.
